

# ADvantageSAS 9.0.2.11 Update Summary

---

This is a maintenance update, and includes ~50 modifications, primarily for ADvantageDB. These include:

- **Version numbering change** – ADvantageSAS versions will now begin with 9.x.y.z, rather than the previous 1.x.y.z numbering.
- Addition of Arinc717 protocol to ADvantageDB.
- Numerous minor changes to ADvantageDB.
- Several enhancements to SIMplotter.

Note: some of these changes are related to logical device changes included in ADvantage update 8.4.1.2 or later.

## Major Enhancements

There are no major enhancements in this update.

Please refer to the release notes for detailed information.
