ADI APPLIED DYNAMICS INTERNATIONAL

ADEPT 10.0.0.1 Update Summary

1   Minor Fixes / Enhancements

This update includes ~160 minor enhancements and fixes:

- Numerous miscellaneous fixes and enhancements to ADEPT-DE, ADEPT-VI, and ADEPT-DB, as well as the real-time server applications.
- Updates to documentation to reflect new product name.

2   Major Enhancements

This release marks the initial distribution of the ADEPT product. Functionally the same as ADvantage 9.x, this release provides an updated look to the products.

Also included are ARM and Linux server support. As of the initial release, minimal device support is included, but subsequent updates will continue to add additional device support.

Please refer to the release notes for detailed information.
