

Applied Dynamics International
invites you to attend

ADI's ADvantage & Real Time Systems

Thursday, November 17th

2:00 - 4:00 EST

The ADvantage Framework is a Model Based Systems Engineering software platform providing an agile, feature-rich environment for supporting system lifecycle through development, integration and test. This interactive online presentation will provide an overview of the ADvantage Framework, including ADvantageDE, ADvantageVI, ADvantageDB, and SIMplotterSAS. ADI's best-in-class COTS hardware solutions for real-time simulation will also be discussed.
