

Applied Dynamics International
invites you to attend

Simulink & C in ADvantage 9

Thursday April 6th

2:00 - 3:00 EDT

The highly anticipated ADvantage version 9 release is right around the corner! Join us in an online webinar as we demonstrate how to build, run, and interact with your Simulink & C based real-time projects in ADvantage 9. Rebuilt from the ground up, ADvantage 9 is a major step forward in ADI's state of the art real-time industrial IoT software platform. Tune in so you can hit the ground running with this exciting new release!
