

Applied Dynamics International
invites you to attend

Upgrading to ADvantage 9

*Thursday October 26th
2:00 - 3:00 EDT*

ADI's highly anticipated ADvantage Version 9 has been released! Join us in an online webinar as we demonstrate how to upgrade your current ADvantage V8 projects to be V9 compatible. Automated conversion tools will be shown that will readily convert ADvantageDE frameworks, ADEPT panels, Python scripts, and supporting project and hardware files that will allow users to begin using V9 tools as quickly as possible.
