

Applied Dynamics International  
invites you to attend

# ADvantage DB with Derived Objects

Wednesday, January 24th  
2:00 - 3:00 EST

ADvantageDB is a tool used to manage large network definitions of complex systems such as aircraft, satellites, and shipboard systems. In this online training course, attendees will learn how to use ADvantageDB's latest new feature: derived objects . Derived objects can be used to greatly reduce the size and complexity of ADvantageDB databases in all supported protocols.
